

Disaster Recovery as a Service

- ✔ Industry leading Backup and Replication Agents
- ✔ Fast Recovery Near Line Storage Appliance
- ✔ Secure Off-site Data Protection
- ✔ Geo-Redundant Recovery in the Cloud

Disaster Recovery for your Physical and Virtual Environments

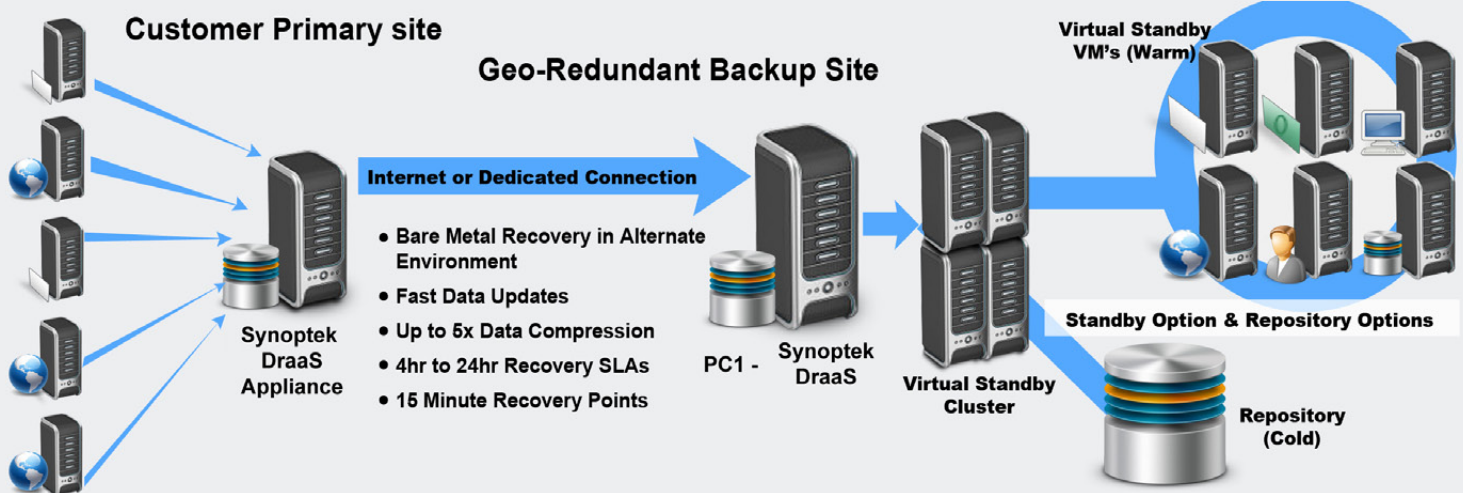

Don't Let a Disaster Destroy Your Business.

Downtime can cost a business dearly. When a disaster strikes, merely backing up your data to tape will not guarantee uptime or business resiliency. For the ultimate in business continuity, you should have the ability to recover your servers either on-site, or off-site in the cloud, as the situation dictates. With Synoptek DraaS you can prepare for worst-case scenarios by enabling geo-redundant cloud recovery services.

Items	Price
Backup & Replication Agents	
Agent Fee	\$65 Per VM/mo
Host Fee	\$250 Per Host/mo
Storage	
0 - 1,000 GB	\$0.29
1,001 - 5,000 GB	\$0.19
5,001 - 10,000 GB	\$0.14
10,001 GB +	\$0.06
Add-Ons	
Medium Node	\$300 Per week*
Large Node	\$800 Per week*
On-site Appliance	Starting under \$200/mo

**Used only when needed on a weekly basis for Recovery or Testing*

- ✔ Push-button failover to standby virtual machines
- ✔ Easy bare-metal restore to similar and dissimilar hardware
- ✔ Integrated data replication with compression and deduplication helps move applications offsite more efficiently
- ✔ Easy-to-implement offsite disaster recovery plans and testing
